### OHCA to Transition to New Health Care Model

The Oklahoma Health Care Authority will transition to a new health care model following Governor J. Kevin Stitt's signing of two delivery reform bills, SB 1337 and SB 1396.

The transition in health care delivery will allow the State to achieve the following payment and delivery system reform goals:

- Improve health outcomes for Oklahomans
- Move toward value-based payment
- Improve SoonerCare member satisfaction
- Contain costs by investing in preventive and primary care.
- Increase cost predictability to the State

### Ohio Expands Peer Support Certifications to Help People in Recovery from Mental Illness and Substance Use Disorders

The Ohio Department of Mental Health and Addiction Services (OhioMHAS), in partnership with Governor Mike DeWine's RecoveryOhio initiative, today announced recent rule changes have created two new types of certified peer supporters – Certified Youth Peer Supporters who specialize in youth and young adults and Certified Family Peer Supporters who specialize in helping families navigate Ohio's treatment and recovery support services systems, to help provide guidance to those recovering from mental illness and substance use disorders. A third category, Adult Certified Peer Recovery Supporter, already exists.

OhioMHAS also announced that Ohio has streamlined the certification process by moving the application process to a digital e-Licensure platform. Not only will this expedite the process for applicants, but it will also allow state officials to better manage, analyze and track Ohio's peer workforce.
